CustomerProblemStatementTemplate:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am an app developer	I'm trying to recommend Jobs those who are Graduated	But I am unable to fix app crashes in an app	Because due to some of the bugs happened during coding of the program	Which makes me feel Disappointed
